7/21/04 A00-03-044 SFPP, L.P., for authority to justify its rates for intrastate transportation of refined petroleum products on the basis of market factors.

Summary: On July 16, 2004, Dennis Bak representing BP West Coast Products LLC (BP), met with Pres. Peevey in Los Angeles. Also present were Elizabeth Atlee for BP, Blanca DeLaRosa and Noreen Tama for ExxonMobil Oil Corporation, and Gordon Gooch for BP and ExxonMobil Oil Corporation, George Weber for Chevron Products Company, and Steven Adducci for Valero Marketing and Supply Company and Ultramar Inc. Written materials (attached to the notice) were provided. Copies of the written materials were also provided to Cmmr. Brown, ALJ Brown and Roosevelt Grant, advisor to Pres. Peevey. Representatives of the companies stated that contrary to the claims of SFPP, SFPP having no effective competition in its destination markets, cannot possibly qualify for any form of deregulation. On the issue of maintenance, the parties stated SFPP has enjoyed creamy returns far in excess of the top of the range granted by this Commission, plus sufficient dollars to pay for all maintenance. The participants stated that a concern is that SFPP is not maintaining its pipeline properly, perhaps diverting the dollars earmarked for maintenance. The participants stated further that there is no rational basis for excusing SFPP from the legal requirement of 'just and reasonable' cost based rates. The parties also noted that if SFPP seeks some form of automatic rate increases, then this issue has not been raised by SFPP in its applications. The parties explained that the Commission should continue its excellent policy of periodic rate review.

Summary: On July 20, 2004, Richard B. Severy, Director of State Regulatory-West, MCI, Inc. (MCI), met with Timothy J. Sullivan, advisor to Cmmr. Kennedy, in San Francisco. Also present was William C. Harrelson, Senior Counsel, MCI. Written materials (attached to the notice) were used. MCI representatives explained why the increase to loop prices recommended in the proposed and alternate

decisions was wholly unsupported by the record. MCI pointed out that a correction of the errors in the Commission staff's run of Joint Applicant's (JA) proposed HM5.3 underlying the proposed decision (PD) would result in significantly lower loop prices, as would adoption of JA's appropriate recommended adjustments to SBC's LoopCat cost study. Severy addressed the impact the PD and alternate would have on competition for residential consumers. Severy also described the recent MCI/Qwest commercial agreement regarding the continued provisioning of the UNE Platform, in particular, the provisions that would maintain current loop prices in Qwest territory and address other issues that, unlike the PD and alternate here, actually promote facilities-based competition.
